FOREWORD

This project documents my train travels over the years in most parts of Canada served by rail, and to a much lesser extent in the United States, Mexico and Costa Rica.

There are 10 main volumes, a *Reprise*, and three supporting Companion Documents.

The Companion Documents encompass six parts. This one features Part I, Trip Details, providing, on a year-by-year basis: list of trips; distances travelled; names and numbers of equipment units; kilometre and trip totals; and equipment totals by category.

This is **VERSION 19** (for changes from the previous version, please see page 420).

ABOUT THE AUTHOR

PETER DAWES worked as a transportation policy researcher, analyst, project manager and advisor for the Canadian Transport Commission and Government of Alberta until taking early retirement. He has had a lifelong personal and professional interest in railways and passenger trains, and resides with his wife Sandra in Edmonton, Alberta.

IMPORTANT!

Please note that photographs ***remain the property of the individual photographer and/or collection, are protected by copyright, and must not be used in any fashion without permission*** (please bear in mind that some are over four decades old, and that colour photos are particularly vulnerable to deterioration; also, that those involving early morning, late afternoon, or night trains often were taken in adverse lighting conditions.)

INTRODUCTION TO COMPANION DOCUMENTS

I've prepared a detailed series of volumes called ***NO MATTER WHERE IT'S GOING***, describing train trips made within Canada, the United States, Mexico and Costa Rica.

There are three Companion Documents, comprising six parts:

COMPANION DOCUMENT NO. 1: TRIP DETAILS (the current document) comprises one part only:

- Part I, **TRIP DETAILS**, which provides, by decade and year:

Table A: Date, Service Provider, Train Number, Train Name, From, and To;

Table B: Kilometres by Service Provider (and Track-Ownning Railway where different);

Table C: Names and Numbers of units, by: Coaches & Dayneters; Parlor & Club Cars; Sleeping & Business Cars; Dining & Other Meal Cars; Lounge Cars; Baggage & Miscellaneous Cars; Locomotives & Related Units;

Table D: Summary of Kilometres, Summary of Trips (both by Service Provider and Track-Ownning Railway); and

Table E: Summary of Equipment by Service Provider.

The document concludes with a **LIST OF PHOTOS** and note describing **CHANGES FROM PREVIOUS VERSION**.

For information, **COMPANION DOCUMENT NO. 2: TRAIN DETAILS** comprises four parts:

- Part II, TRAINS OF PARTICULAR INTEREST;
- Part III, TRIPS BY ROUTE SEGMENT;

NO MATTER WHERE IT'S GOING: COMPANION DOCUMENT NO. I

- Part IV, DISTANCES TRAVELLED AND TRIPS TAKEN; and
- Part V, EQUIPMENT UNITS.

COMPANION DOCUMENT NO. 3: EQUIPMENT DETAILS comprises one part:

- Part VI, EQUIPMENT DETAILS.

This Companion Document now covers all years up to and including: **2025**.

The many persons who assisted in this project are acknowledged in the main volumes. Special thanks here to the late Bruce Chapman, Bill Linley, the late Bob Sandusky, Greg Thompson and the late Brian Sullivan for supplying photos for this document (please bear in mind the conditions for using **Photographs**, as outlined at the top of the previous page). Also the late Earl Roberts for pointing out some errors in locomotives assumed for earlier years.

Peter Dawes
Edmonton, Alberta
January, 2026.

1	254	-	254	-	-

- 254: 254 kms by VIA, in regular type to indicate “Service Provider”;
- 254: 254 kms over CN, in *Italics* to signify “Track-Ownning Railway” (where different).

Kilometres are provided throughout this document (to convert to miles, just multiply by 0.6241).

TABLE 1988–C
Names and Numbers

<i>line</i>	<i>cn</i>	<i>cp</i>	<i>va</i>	<i>other</i>	<i>notes</i>
-------------	-----------	-----------	-----------	--------------	--------------

Coaches & Daynitters:

1	-	-	3321,3334	-	also 3355, 3336
---	---	---	------------------	---	-----------------

- **3321,3334**: two Coaches (the **bold** indicating that one of them was occupied by the author);
- 3355,3336: two additional Coaches also in the consist (shown under **notes**, or in a footnote as necessary; No. 3355 in *Italics* meaning that a fourth Coach was known to be part of the train, its number unrecorded but later assumed).

As well, I provide information in the same manner for Parlor & Club Cars, Sleeping & Business Cars, Dining & Other Meal Cars, Lounge Cars, Baggage & Miscellaneous Cars, and Locomotives & Related Units. The absence of one or more of these headings means no such units were encountered during that year.

TABLE 1988-D
Summary of Kilometres and Trips

<i>enty</i>	<i>totl</i>	<i>coac</i>	<i>slpr</i>	<i>loco</i>	<i>sptr</i>	<i>smtt</i>
-------------	-------------	-------------	-------------	-------------	-------------	-------------

KILOMETRES

By Service Provider:

all	1679	1000	679	1500	179	-
va	1679	1000	679	1500	179	-

- all: all Service Providers;
- 1679: total kms during this year (all by VIA);
- 1000 and 679: kms in "Coach" and "Sleeper" categories, respectively;
- 1500 and 179: kms in locomotive hauled and self-propelled trains, respectively;
- under *smtt*: dash indicates no trips behind steam locomotives.

By Track-Owning Railway:

- similarly (please see definitions below).

Similar information follows for **TRIPS**, in the same format. (Please note that where Service Provider and Track-Owning Railway were the same, there is a single, combined entry.)

TABLE 1988-E
Summary of Equipment by Service Provider

ALL UNITS:

<i>spro</i>	<i>totl</i>	<i>cars</i>	<i>coac</i>	<i>prlr</i>	<i>slpr</i>	<i>dner</i>	<i>Inge</i>	<i>bagg</i>	<i>loco</i>	<i>notes</i>
-------------	-------------	-------------	-------------	-------------	-------------	-------------	-------------	-------------	-------------	--------------

all	42	33	13	2	3	1	1	13	9	-
-----	----	----	----	---	---	---	---	----	---	---

- 42: total number of equipment units in trains used during this year;
- 33: number of cars (followed, by category: Coaches & Dayneters, 13; Parlor & Club Cars, 2; Sleeping & Business Cars, 3; Dining & Other Meal Cars, 1; Lounge Cars, 1; Baggage & Miscellaneous Cars, 13);
- 9: number of Locomotives & Related Units.

This table continues with additional listings by the individual equipment categories. Please note that: **Coaches & Daynitters** includes Coaches equipped with snack bars; **Parlor & Club Cars**, all such cars equipped with a food or lounge section; **Sleeping & Business Cars**, Slumbercoaches and Sleeping cars used as dormitories; **Dining & Other Meal Cars**, Diner Lounge, Diner Grill, Dinette and Lunch Counter cars; **Lounge Cars**, Coach, Cafe, Buffet, Observation and similar cars featuring a Lounge section; **Baggage & Miscellaneous Cars**, Dormitory and other combination cars featuring a baggage section, also cabooses and freight cars; and **Locomotives & Related Units**, Steam Generator and other “hotel” cars. Abbreviations for car types in this table are shown below (pages 23-4).

Important further explanations and clarifications:

- VIA Rail Canada is shown as taking over responsibility for marketing CN and CP intercity trains effective June 1, 1977 and train numbers from that date, during the ensuing transitional period, are shown as “va/cn” or “va/cp”, later as “va” only from June 1, 1978 where CN is concerned, and October 29, 1978 for CP (*see Index or first pages of these VIA/CN/CP timetables for details of the transition: Oct. 31/76; Apr. 24/77; Oct. 30/77*);
- Service Provider” means the railway or agency providing the service (e.g., VIA Rail or Amtrak);
- “Track-Ownning Railway” means the railway or agency owning or leasing the track, or, where running rights are involved, the railway or agency holding such rights (for simplification, where a train ran for a relatively short distance to access a station located on a second railway, the trip is considered to be wholly on the first railway – e.g., VIA’s *Canadian*, when it began switching from CP to CN to access Winnipeg CN station, is shown as running wholly over CP);
- Where Ottawa-Brockville is concerned, VIA is shown as becoming responsible beginning in 1987, further to CN’s transfer of ownership of the Ottawa-Smiths Falls segment (technically, Smiths Falls-Brockville continued to be owned by CP, but is treated here as being under the ownership of VIA, and as being operated by VIA);
- Numbers and names are shown in *Italics* for those trips before I began recording consists (which for the most part, but with some exceptions, means prior to 1974), also where missed thereafter – based on best estimates of equipment available and probably assigned to the train concerned;
- Details of trains operated by Service Providers other than CN, CP or VIA are shown under the heading **other**;
- Specialized train types are indicated (e.g., “turb” for Turbotrain);
- Powered cars are listed under Coaches & Daynitters (or other car-type headings where appropriate), not under Locomotives & Related Units;
- Self-propelled trains are shown in **TABLES B** and **C** either as **rdct** (for Rail Diesel Car) or **espt** (for Electric Self Propelled Train), then collectively as **sptr** (for Self-Propelled Train) in **TABLE D**;
- Also in **TABLE D**, where more than one “Track-Ownning Railway” is involved, kilometres are awarded according to the actual distance on each entity, but the trip is awarded to the entity accounting for the greater or greatest distance (e.g., Ontario Northland gets Toronto-Cochrane *Northland* trips because its distance was greater than partner CN’s);

- Cars used for a purpose other than their primary one are shown in their own category (e.g., a Club Galley used as a Coach will be found under Parlor & Club Cars, not Coaches & Dayneters);
- In **TABLE E**, equipment units are awarded to the Service Provider, which was not necessarily the owner (in the case of VIA, this has been done from the corporation's assumption of marketing duties on June 1, 1977, although most equipment was actually conveyed during 1978);
- An abbreviation in brackets immediately beside a number or name indicates that the unit carried the markings of a different Service Provider or car owner when recorded (e.g., "2556[GN]" associated with an Amtrak train would mean that the unit bore Great Northern Railway markings);
- In the case of VIA, some equipment continued to bear CN or CP colours and markings for some time after being conveyed to VIA, without being so indicated in this document;
- Equipment details can be obtained by looking up the car or locomotive concerned in *COMPANION DOCUMENT No. 3*.
