## FOREWORD

This project documents my train travels over the years in most parts of Canada served by rail, and to a much lesser extent in the United States, Mexico and Costa Rica.

There are 10 main volumes, a *Reprise*, and three supporting Companion Documents.

The Companion Documents encompass six parts. This one features Part VI, Equipment Details, providing information on cars and locomotives forming the trains I've taken.

This is **VERSION 19** (for changes from the previous version, please see page 164).

### ABOUT THE AUTHOR

PETER DAWES worked as a transportation policy researcher, analyst, project manager and advisor for the Canadian Transport Commission and Government of Alberta until taking early retirement. He has had a lifelong personal and professional interest in railways and passenger trains, and resides with his wife Sandra in Edmonton, Alberta.

Roberts, Earl W. *[CD3-9].*

### IMPORTANT!

Please note that photographs ***remain the property of the individual photographer, are protected by copyright, and must not be used in any fashion without permission*** (please bear in mind that some are more than three decades old, and that colour photos are particularly vulnerable to deterioration; also, that those involving early morning, late afternoon, or night trains often were taken in adverse lighting conditions).

## INTRODUCTION TO COMPANION DOCUMENTS

I've prepared a detailed series of volumes called ***NO MATTER WHERE IT'S GOING***, describing train trips made within Canada, the United States, Mexico and Costa Rica.

There are three Companion Documents, comprising six parts:

**COMPANION DOCUMENT NO. 3: *EQUIPMENT DETAILS*** (the current document) consists of one part only:

- PART VI, **EQUIPMENT DETAILS**, which provides, under each service provider, the name or number of each car and locomotive forming all the trains I've taken, as well as the year (or years) in which those trips occurred, previous history, and later disposition:

**Table L1:** Coaches & Dayneters;

**Table L2:** Parlor & Club Cars;

**Table L3:** Sleeping & Business Cars;

**Table L4:** Dining & Other Meal Cars;

**Table L5:** Lounge Cars;

**Table L6:** Baggage & Miscellaneous Cars; and

**Table L7:** Locomotives & Related Units.

The document concludes with a **BIBLIOGRAPHY**, **LIST OF PHOTOS**, and note describing **CHANGES FROM PREVIOUS VERSION**.

## NO MATTER WHERE IT'S GOING: COMPANION DOCUMENT NO. 3

For information, **COMPANION DOCUMENT NO. 1: TRIP DETAILS** comprises one part only:

- Part I, TRIP DETAILS.

**COMPANION DOCUMENT NO. 2: TRAIN DETAILS** is made up of four parts:

- Part II, TRAINS OF PARTICULAR INTEREST;
- Part III, TRIPS BY ROUTE SEGMENT;
- Part IV, DISTANCES TRAVELLED AND TRIPS TAKEN; and
- Part V, EQUIPMENT UNITS.

This Companion Document now covers all years up to and including: **2025**.

The many persons who assisted in this project are acknowledged in the main volumes. Special thanks here to Sandra Dawes and the late Earl Roberts for two of the photos appearing in this document (please bear in mind the conditions for use of **Photographs** just outlined on page 5 above). Also to all of those listed under **REFERENCES** below (pp. 23-5), but especially the following: Dan Ainsworth; Juan Cabuto; John Coombs; Raymond Corley; the late Patrick Dorin; Zenon Hanson; Ken Harrison; Gay Lepkey; Tom Matoff; Charles McDonald; Lowell McManus; Michael Palmieri; Richard Peterson; David Randall; Earl Roberts; Geoff Sarbutt; Dave Staplin; Dave Stremes; David Warner; and the late Robert Wayner.

**Peter Dawes**  
Edmonton, Alberta  
January, 2026.

# PART VI EQUIPMENT DETAILS

*[TABLE L]*

**CD3-2:** Author posing with leased or borrowed Southern Pacific SDP45 3201 at San Luis Obispo CA, being serviced at the head of Amtrak's Los Angeles-bound No. 11 *Coast Starlight* (1987/04/29) [SANDRA DAWES].

## SAMPLE ENTRIES AND EXPLANATIONS

[Note: **shading** is used here only for clarity (it is not used in the actual tables)]

| Okefenokee [2101]                                                                                                                                          | 75           | ex-4sc4rm5db1ct Gardenia, (6401) |
| <ul style="list-style-type: none"> <li>• lr-scd Rubi (722)</li> <li>• <b>1954:</b> year built;</li> <li>• <b>ps:</b> built by Pullman-Standard;</li> </ul> |              |                                  |

- **4sc4rm6db:** configuration of 4 Sections, 4 Roomettes, 6 Double Bedrooms;
- **ex-al,sc:** formerly owned by Atlantic Coast Line, then Seaboard Coast Line;
- **[rtrd]:** current status of the unit or series if known (retired here);
- **[pcv:16; tyr]:** references (*Railway Passenger Car Annual*, Vol. V, p. 16); also "Lightweight Passenger Car List" (Toshihiko Yamada) (*MEXLIST website*);
- **Okefenokee** [2101]: car name and [number] (**bold** indicating this car was occupied at least once by the author);
- **75:** one trip recorded, in 1975 (again, **bold** indicating occupied);
- **ex-4sc4rm5db1ct Gardenia,** formerly Atlantic Coast Line Gardenia, then Seaboard Coast Line, (6401) also Gardenia, but different car number (6401);
- **lr-scd Rubi (722) [+mmp]** later owned by Servicios de Coches Dormitorios y Conexos and named Rubi, car number 722 (additional resource: Michael M. Palmieri, *Amtrak Master Spreadsheets*).

Important further explanations (and reminders):

- The equipment units are presented by service provider, not necessarily owning railway;
- The home base of service providers and owners, as indicated under **ABBREVIATIONS** below, will not always be accurate, due to relocations and differing sources;
- **Coaches & Daynitters** includes such cars equipped with snack bars; **Parlor & Club Cars**, all such cars equipped with a food or lounge section and in Parlor or Club service; **Sleeping & Business Cars**, Slumbercoaches and Sleepers used as dormitories; **Dining & Other Meal Cars**, Diner Lounge, Dinette and Lunch Counter cars; **Lounge Cars**, Coach, Cafe, Buffet, Observation and similar cars featuring a Lounge section; **Baggage & Miscellaneous Cars**, Dormitory and other combination cars featuring a baggage section, also cabooses, freight cars, and automobile transporters; **Locomotives & Related Units**, "Power", generator and other "Hotel" cars;
- Units belonging to each of these categories are shown under "Canadian-based Service Providers", "American-based Service Providers", and "Mexican & Costa Rican-based Service Providers";
- Although operating a train for Amtrak, Delaware & Hudson has its own listings because it provided the equipment;
- Although based in Campo CA, Pacific Southwest Railway Museum Association sponsored excursions within Mexico and therefore is shown under "Mexican & Costa Rican-based Service Providers";
- Named units are listed first, then units carrying only numbers (where series are involved, this is done by lead name or number);
- Self-propelled cars are listed under car type, not Locomotives & Related Units;
- Numbers and names shown in *Italics* are for those trips before I began recording consists (which, for the most part, but not entirely, means prior to 1974), also where missed thereafter – based on best estimates of equipment available and typically assigned to the train concerned;

- A number or name in **Bold** indicates I occupied and recorded the unit on at least one trip, while a year in **Bold** means I occupied the unit on that trip, whether recorded or assumed;
- Specialized train types and combination cars are shown in the heading (e.g., “turb” for Turbotrain; “cafe” where such a section was involved);
- A reference, immediately to the right of the manufacturer, to another entity means that that entity owned the unit or units in a series, and that the unit or units were in its colours when recorded;
- Reference in brackets, next to a year or years, to an entity means that the unit was in the colours of a former owner, related company, subsidiary or lessee (e.g., “74[up]” would mean the unit was in Union Pacific colours during a 1974 trip, despite then being owned by Amtrak);
- Equipment owned, or used prior to purchase, by VIA during its initial years might have been in CN or CP colours without being indicated as such in this document;
- Number of seats or type of accommodation will not always be accurate, due to periodic refurbishments and conflicting information (typical numbers are provided for the most prevalent era recorded or assumed);
- French and Spanish names are shown with accents, although these might not have appeared in the actual lettering;
- A **star** [\*] indicates that a unit, carrying that name/number, was conveyed from CN or CP to VIA;
- Deadheading units are indicated by [dd];
- Wheel arrangement is shown for steam locomotives only;
- Where a unit was later leased to another party, the lessee usually is shown only if of particular interest in a Canadian context;
- A colon and number indicates that a unit carried more than one number or name over its lifetime (e.g., “5099:2” means this was the second unit to carry the number 5099);
- Where necessary, additional information is indicated under **notes**, including – where a series of cars or locomotives is involved – any variation from the heading (e.g., built in a different year than most of the class);
- Where former owners are concerned (e.g., “ex-al,sc” as in the sample above), the first number or name is for the first former owner (Atlantic Coast Line), the second for the second owner (Seaboard Coast Line), and so on (where particularly complicated, abbreviations are provided with the numbers/names);
- Where necessary, information is continued below an individual entry or at the end of a series, in the form of a letter or letters (e.g., [a]), and one or more symbols (• ♦ ♠).

Finally, all of the equipment information provided in this document comes from secondary sources and will not always be accurate (due to errors in the source material or misinterpretation by the author) or up to date (where later disposition is concerned). There also are plenty of gaps and holes. ***Please send corrections and further information to the author, using the information provided on page 2 above.***
