LA GRANDE ALLURE: COMPANION DOCUMENT

FOREWORD

This project documents my extensive train travels over the years in Europe, and to a much lesser extent in Australia and Fiji, India and Sri Lanka, Japan and Hong Kong.

There are six main volumes, a Reprise, and this supporting Companion Document.

The Companion Document encompasses six parts: Part I, providing trip details; Part II, listing trains of particular interest; Part III, showing trips by route segment; Part IV, summarizing kilometres and trips by service provider and country; Part V, summarizing cars and locomotives by service provider; and Part VI, providing information on locomotives, multiple units, and cars encountered.

This is **VERSION 6** (for changes from the previous version, please see page 388.

ABOUT THE AUTHOR

PETER DAWES worked as a transportation policy researcher, analyst, project manager and advisor for the Canadian Transport Commission and Government of Alberta until taking early retirement. He has had a lifelong personal and professional interest in railways and passenger trains, and resides with his wife Sandra in Edmonton, Alberta.

PHOTO CREDITS

All by the author.

IMPORTANT!

Please note that photographs **remain the property of the author, are protected by copyright, and must not be used in any fashion without permission** (please bear in mind that some are three decades old and counting, and that colour photos are particularly vulnerable to deterioration; also, that those involving early morning, late afternoon, or night trains often were taken in adverse lighting conditions).

INTRODUCTION TO COMPANION DOCUMENT

I've prepared a detailed series of volumes, called **LA GRANDE ALLURE**, describing train trips made within Europe, Australia and Fiji, India and Sri Lanka, Japan and Hong Kong.

This Companion Document comprises six parts:

- Part I, **TRIP DETAILS**, providing, by decade and holiday:

Table A: Date, Service Provider, Train Number, Train Name, From, and To;

Table B: Kilometres by Service Provider;

Table C: Number of units (also names and numbers where recorded), for Coaches, Pullmans & Lounges; Sleeping & Couchette Cars; Restaurant & Other Meal Cars; Baggage & Miscellaneous Cars; and Locomotives & Related Units;

Table D: Summary of Kilometres; Summary of Trips (both by Service Provider and Country);

Table E: Summary of Equipment (by Service Provider).

- PART II, **TRAINS OF PARTICULAR INTEREST**, listing Named, Steam, High Speed and Sleeper trains:

Table F: Trips of Particular Interest.

- PART III, **TRIPS BY ROUTE SEGMENT**, showing the number of trips over specific route segments in the categories of British Rail/Railtrack/Network Rail, UK Preserved Steam Railways, The Continent, Australasia, and Asia:

LA GRANDE ALLURE: COMPANION DOCUMENT

Table G1: All Decades and 1970's;

Table G2: 1980's, 1990's and 2000's.

Table G3: 2010's.

- PART IV, **DISTANCE TRAVELED AND TRIPS TAKEN**, providing:

Tables H1-2: Kilometres by Service Provider; Trips by Service Provider;

Tables J1-2: Kilometres by Country; Trips by Country.

- PART V, **EQUIPMENT UNITS BY SERVICE PROVIDER**, summarizing equipment encountered, by holiday and Service Provider, in these categories:

Table K1: All Units;

Table K2: Coaches, Pullmans & Lounges;

Table K3: Sleeping & Couchette Cars;

Table K4: Restaurant & Other Meal Cars;

Table K5: Baggage & Miscellaneous Cars;

Table K6: Locomotives & Related Units.

- PART VI, **EQUIPMENT DETAILS**, offering information on units recorded by number, name or – in some cases – class, in these categories:

Table L1: Coaches, Pullmans & Lounges;

LA GRANDE ALLURE: COMPANION DOCUMENT

Table L2: Sleeping & Couchette Cars;

Table L3: Restaurant & Other Meal Cars;

Table L4: Baggage & Miscellaneous Cars;

Table L5: Locomotives & Related Units.

(**Important note:** Compared to my North American travels, my recording of overseas numbers and names has been sporadic at best. However, this Part VI does provide a general overview of cars and locomotives encountered, as well as references to back up specific information mentioned in the main volumes.)

The document concludes with a **LIST OF PHOTOS** and note describing **CHANGES FROM PREVIOUS VERSION.**

This Companion Document now covers all holidays up to and including: **2019.**

The many persons who assisted in this project are acknowledged in the main volumes. Where Part VI is concerned, thanks here to all of those listed under **REFERENCES** (pp. 325-9), but especially the following: John Beckhaus; Peter Clark; John Cleverdon; Michael Cope; Stefan Dringenberg; Chris Drymalik; Geoff Sarbutt; Neil Smith; and Michael Taylor.

Peter Dawes
Edmonton, Alberta
September, 2019.

PART I TRIP DETAILS

[TABLES A, B, C, D, E]

CD-2: Great North Eastern Railway Electric 225 train waiting to depart
London's King's Cross station for Newcastle, led by locomotive
91108 CITY OF LEEDS (2007/10/13) [PETER DAWES].

SAMPLE ENTRIES AND EXPLANATIONS

[Note: shading is used here only for clarity (it is not used in the actual tables)]

TABLE 1976-A
Date; Train Number; Train Name; From; To

<i>line</i>	<i>date</i>	<i>number</i>	<i>name</i>	<i>from</i>	<i>to</i>	<i>notes</i>
70	04/11	cf TEE63	Stanislas	Paris est	Strasbourg	-
• 70:	70th trip of this holiday;					
• 04/11:	Nov. 4;					
• cf tee63:	Société nationale des chemins de fer Français (French National Railways – SNCF)					
• Stanislas:	Train No. TEE (for Trans-Europ Express) 63;					
• Paris est:	name of train;					
• Strasbourg:	originating point of trip (Paris Gare de l'Est);					
	destination of trip.					

TABLE 1976-B
Kilometres by Service Provider

<i>line</i>	<i>br</i>	<i>cf</i>	<i>db</i>	<i>sb</i>	<i>bl</i>	<i>ob</i>	<i>cb</i>	<i>other</i>	<i>notes</i>
70	-	504	-	-	-	-	-	-	teet
• 504:	number of km travelled, on SNCF;								
• teet:	Trans-Europ Express.								

Kilometres are provided throughout this document (to convert to miles, just multiply by 0.6241). A number in **bold** would indicate occupancy of a Sleeping car.

TABLE 1976-C
Equipment by Category

Coaches, Pullmans & Lounges:

<i>line</i>	<i>br</i>	<i>cf</i>	<i>db</i>	<i>sb</i>	<i>bl</i>	<i>ob</i>	<i>cb</i>	<i>other</i>	<i>notes</i>
70	-	7	-	-	-	-	-	-	-
• 7:	number of Coaches, Pullmans & Lounges, on SNCF (the bold indicating that I occupied one of these cars).								

LA GRANDE ALLURE: COMP. DOC. – PART I

As well, information is provided in the same manner for Sleeping & Couchette Cars, Restaurant & Other Meal Cars, Baggage & Miscellaneous Cars, and Locomotives & Related Units.

TABLE 1976-D
Summary of Kilometres and Trips

<i>caty</i>	<i>totl</i>	<i>coac</i>	<i>slpr</i>	<i>loco</i>	<i>sptr</i>	<i>smtt</i>

<ul style="list-style-type: none"> • all: • 11757: • 8932 and 2825: • 10010 and 1747: • 15: 		all Service Providers; total km travelled during this holiday; km in Coaches, Pullmans & Lounges and Sleeping & Couchette Cars, respectively; km on locomotive hauled and self-propelled trains, respectively; km (of the total) on Steam trains.					

By Country:

- similarly, with European, Australasian and Asian totals.

Similar information follows on **TRIPS**, in the same format, also by Service Provider and Country.

TABLE 1976-E
Summary of Equipment by Service Provider

<i>spro</i>	<i>totl</i>	<i>cars</i>	<i>coac</i>	<i>slpr</i>	<i>rest</i>	<i>bagg</i>	<i>loco</i>	<i>notes</i>	
all	623	559	437	33	43	46	64	-	
<ul style="list-style-type: none"> • 623: • 559: • 64: 		total number of equipment units in trains used during this holiday; number of cars (followed, by category: Coaches, Pullmans & Lounges, 437; Sleeping & Couchette Cars, 33; Restaurant & Other Meal Cars, 43; Baggage & Miscellaneous Cars, 46); number of Locomotives & Related Units.							

This table continues with additional listings by the individual equipment categories. Please note that: **Coaches, Pullmans & Lounges** includes full Coaches, Daynitors, Coach Lounge cars, Coach Baggage, Pullmans, Pullman Kitchen cars, full Lounge, full Observation, Observation Lounge, self-propelled cars (either diesel or electric), Inspection and Directors cars essentially in Lounge service; **Restaurant & Other Meal Cars**, Restaurant Buffet cars, Restaurant Coaches, Restaurant Lounge, full Buffet cars, Buffet Coaches,

LA GRANDE ALLURE: COMP. DOC. – PART I

Buffet Kitchen, Buffet Lounge and Cafe Lounge cars; **Baggage & Miscellaneous Cars**, full Baggage, Guard, Parcels, Newspapers, Mail and Baggage Mail cars, Automobile carriers, Freight, Tool support and Crew cars; **Locomotives & Related Units**, diesel-electric, diesel-hydraulic, electric and steam locomotives, diesel and electric Power Coaches, Generator, and Baggage Generator cars.

Important further explanations and clarifications:

- “Service Provider” means the railway or agency providing the service;
- Train numbers are typically used by continental, Australian and Asian Service Providers, while, in Britain, departure time is normally used, from the boarding point;
- All names of cars and locomotives were recorded but only the occasional car number, due to the sheer number of services taken, length and complexity of train composition, long numbers (sometimes including symbols), and quick station stops (the major exceptions being steam and other excursion trains in the British Isles and most trains in Australia, which typically bore numbers and often names, and were much easier to record);
- Names of cars and locomotives are shown in *Italics*, as well as unit types and number of units where recording was impractical and assumptions had to be made;
- Details on trains operated by smaller Service Providers are shown under the heading **other**;
- Powered cars are listed under Coaches, Pullmans & Lounges (or other categories where appropriate), not under Locomotives & Related Units;
- Jointly owned units are arbitrarily split between the Service Providers involved;
- In **TABLE B**, high-speed and other distinctive train types are identified under **notes** (e.g., *teet* for Trans-Europ Express; *hstt* for British High Speed Train; *shin* for Shinkansens);
- Under **Sleeping & Couchette Cars**, the following common acronyms refer to **European** car types (CAPS in **TABLE C**; *Italics* in **TABLE E**): F; MU; SLC; SLE; SLF; SLS; T2 (due to space limitations, several additional types are noted under MU [AB30; AB33; MUn; TWL4; U] or T2 [T2S]);
- The following acronyms refer to **Australian** Sleeping car types: under SLF (*ARJ; RM*); under SLS (*ARL; ARM; BRJ; TWN*); and under SLE (*SEC*) – TWN being assigned to Twinette, RM to Roomette, and SEC to Sections;
- The following acronyms refer to **Indian** Sleeping car types: under SLC (1AC2); under SLF (1AC); under SLS (2AC); and under SLE (3AC) (also, “Sleeper Class” cars are considered **Couchette Cars**);
- In **TABLE D**, self-propelled trains are shown as **sptr** (for Self-Propelled Train);
- Also in **TABLE D**, where more than one Service Provider is involved, kilometres are awarded according to actual distance on each entity, but the trip is awarded to the entity accounting for the greater or greatest distance (e.g., SNCF gets London-Paris *Night Ferry* trips because its distance was greater than British Rail's), except in Japan, where the greater or greatest distance alone governs;

- In **TABLES D & E**, Kilometres and Trips for **Berner-Oberland** include those for the associated Bergbahn Lauterbrunnen-Mürren, Jungfraubahnen, and Wengernalp Bahn; for **Bern-Lötschberg-Simplon**, Bern-Neuchâtel Bahn and Spiez-Erlenbach-Zweisimmen Bahn; for **British Rail**, Vale of Rheidol Narrow Gauge Steam Railway; for **Connex**, Connex South Central and Connex South Eastern; for **First Group**, First Capital Connect, First Great Western, and First TransPennine Express; for **Indian Railways**, Darjeeling Himalayan and Kalka-Simla; for **Isle of Man Railways**, Douglas-Laxey-Ramsey Electric Railway, Douglas-Port Erin Steam Railway, and Snaefell Mountain Railway; for **Magyar Államvasutak**, Állami Erdei Vasút; for **Železničná Spoločnosť Slovensko**, Ozubnicové Železnice and Tatranská Elektrická Železnica; and for **Daitetsu**, Ōigawa Steam Railway and Southern Alps Railway.
- Most distances are taken from Thomas Cook's *European Timetable* (formally *Continental Timetable* or *International Timetable*), or successor ERT's *European Rail Timetable*, of various years, although information for the precise year or month was not always available; **or** from railway timetables where Cook's/ERT does not provide such information or does so in a manner which makes computing difficult (distances may vary from one trip to another due to routing changes or updates of information made by Cook's/ERT or Service Providers, and for international services are calculated to or from the nearest operating point, which is rarely right at the border; are rounded to the nearest full kilometre or mile; and may vary from timetables especially where conversion back and forth between the two measures was necessary and where Cook's/ERT or the Service Provider used a different ratio; **or** from websites [especially in the case of Japan], itineraries or other sources).

PART II TRAINS OF PARTICULAR INTEREST

[TABLE F]

CD-8: Berner Oberland [left] and Wengernalp trains at Lauterbrunnen (1980/10/06) [PETER DAWES].

SAMPLE ENTRY AND EXPLANATIONS

TABLE F
Trains of Particular Interest

date	spro	train	from-to	notes
2003:				
07/10	gn	Highland Chieftain	Inverness-Edinburgh	-
11/10	sv	<i>1530</i>	<i>Kidderminster-Bridgnorth</i>	No. 7714 (gr)
12/10	es/cf	9016	London-Paris	Eurostar
12/10	cf	Le Côte Vermeille	Paris-Perpignan	T2

This table includes all named trains, as well as no-name Steam, High Speed and Sleeper trains. Key:

- No **Bold**, no *Italics*: trip taken in a Coach, Pullman or other day vehicle on a named train, here Great North Eastern Railway's *Highland Chieftain* from Inverness to Edinburgh;
- *Italics* but no **Bold**: trip taken on a Steam train, here Severn Valley Railway from Kidderminster to Bridgnorth, behind locomotive No. 7714 sporting Great Western Railway colours;
- **Bold** but no *Italics*: trip taken on a high-speed train (average speed of at least 150 kilometres [93 miles] per hour), in this case *Eurostar* from London to Paris operated by Eurostar (UK) and SNCF;
- **Bold** and *Italics*: trip taken in a Sleeping or Couchette car, here an SNCF T2 type Sleeper from Paris to Perpignan.

Important further explanations:

- All trains offered two classes unless shown otherwise (exceptions: Sri Lanka (three); India (multiple));
- Sleeping car types are described by their common acronyms, such as **MU** or **T2** (where Australia is concerned, some acronyms are assigned, namely **TWN** for Twinette, **RM** for Roomette, and **SEC** for Sections); and
- Where two or more Service Providers and Sleeping cars are concerned, the owner of the occupied car is indicated (e.g., **AB33 [sb]** means an AB33-type car owned by SBB).

PART III TRIPS BY ROUTE SEGMENT

[TABLE G]

CD-9: State Transport Authority trams at Adelaide Victoria Square station,
having just arrived from Glenelg (1990/11/20) [PETER DAWES].

SAMPLE ENTRY AND EXPLANATIONS

[Note: shading is used here only for clarity (it is not used in the actual tables)]

TABLE G2
1980's, 1990's & 2000's – Trips by Route Segment

sgmt	80	81	84	85	88	80's	90	92	98	90's	03	07	00's
------	----	----	----	----	----	------	----	----	----	------	----	----	------

BRITISH RAIL/RAILTRACK/NETWORK RAIL

London; Birmingham; Manchester; Crewe; Liverpool; Preston; Windermere; Carlisle; Barrow; Carstairs; Edinburgh; Lanark; Glasgow;

London-Rugby	1	2	2	-	3	8	-	-	3	3	4	-	4
--------------	---	---	---	---	---	---	---	---	---	---	---	---	---

- London-Rugby: route segment;
- 1,2,2 [etc.]: number of trips over this segment (1 in 1980, 2 in 1981, 2 in 1984, etc.).

A similar table is provided for All Decades and 1970's (**TABLE G1**).

Please note that the information is presented, in each of these tables, under these headings:

- BRITISH RAIL/RAILTRACK/NETWORK RAIL;
- BRITISH STEAM AND ELECTRIC RAILWAYS;
- THE CONTINENT;
- AUSTRALASIA.; and
- ASIA.

Important further explanations and clarifications:

- Route segments are listed under track-owning entities, which in most cases means Service Providers – the major exception being the British Isles, where BR owned most of the track when these holidays began, then Railtrack, and now Network Rail;
- The name of the nearest recognizable community or junction is used where routes merge, diverge or cross at unnamed or minor places (in a few cases, no junction is shown);

LA GRANDE ALLURE: COMP. DOC. – PART III

- Route segments within a metropolitan area generally are excluded (exception: London Waterloo-Wimbledon, where inter-, rather than intra-, city trips are shown);
- Further information sometimes is included in brackets to clarify the route taken where there was more than one possibility – examples being “London-Peterborough (Cambridge)”, meaning via Cambridge, not the direct, East Coast Main Line route; or “Wien-Baden (Lokalbahn)”, meaning the Wiener Lokalbahn route;
- Mainline steam trips are shown under regular route segments, not under **BRITISH STEAM AND ELECTRIC RAILWAYS**; and
- The 29 SEP, 1979 *Night Aberdonian* trip is placed on its regular route, despite taking an unknown path due to “engineering works”.

ABBREVIATIONS

GENERAL

BR	British Rail
IC	Inter City trains only
J.	Junction
sgmt	Route segment
totl	Total

ROUTINGS

AVE	Alta Velocidad Española (High Speed Spanish) train
CTRL	Channel Tunnel Rail Link

PART IV DISTANCE TRAVELED AND TRIPS TAKEN

[TABLES H, J]

CD-10: French National Railways (SNCF) narrow-gauge, third-rail electric *Le Petit Train Jaune* at Villefranche/Vernet-les-Bains (2003/10/13) [PETER DAWES].

SAMPLE ENTRY AND EXPLANATIONS

[Note: shading is used here only for clarity (it is not used in the actual tables)]

TABLE H1
Kilometres by Service Provider

<i>year</i>	<i>totl</i>	<i>coac</i>	<i>slpr</i>	<i>loco</i>	<i>sptr</i>	<i>smtt</i>
BRITISH RAIL:						
76	9215	6727	2488	7509	1706	-

- 76: 1976;
- 9215: total number of km travelled on BR;
- 6727 and 2488: km in Coach and Sleeper categories, respectively;
- 7509 and 1706: km on locomotive hauled and self-propelled trains, respectively;
- - no trips behind Steam locomotives.

Also provided in a similar format are summaries of: Trips by Service Provider (**TABLE H2**); Kilometres by Country (**TABLE J1**); and Trips by Country (**TABLE J2**). Please note that there is no Table I, due to possible confusion with the number 1.

Kilometres are provided throughout this document (to convert to miles, just multiply by 0.6241).

Important further explanations and clarifications:

- “Service Provider” means the railway or agency providing the service;
- Major European Service Providers are presented first, followed by smaller European, Australasian and Asian entities under “OTHERS” (both groups in alphabetical order);
- **Coach** includes travel in Coach, Pullman or other day accommodation, while **Sleeper** includes travel in Sleeping and Couchette cars;
- Most distances are taken from Thomas Cook's *European Timetable* (formally *Continental Timetable* or *International Timetable*) of various years, or successor ERT's *European Rail Timetable*, although information for the precise year or month was not always available; **or** from railway timetables where such information is not provided or is so in a manner which makes computing difficult (distances may vary from one trip to another due to routing changes or updates of information, and for international services are calculated to or from the nearest operating point, which is rarely right at the border; are rounded to the nearest full kilometre or mile; and may vary from timetables especially where conversion back and forth between the two measures was necessary and where Cook's/ERT or the Service Provider used a different ratio; **or** from websites, itineraries or other sources)

- Where more than one Service Provider was involved, kilometres are awarded according to the distance involved, but the trip goes to the Service Provider accounting for the greater or greatest distance (exception: Japan, where some Shinkansen services were provided jointly [in which case all kilometres are awarded to the operator which owned the greater part of the route], or provided by one company over a route whose track was owned by two or more companies [in which case the trip is awarded to that one company]);
- Kilometres and Trips for **Berner-Oberland** include those of the associated Bergbahn Lauterbrunnen-Mürren, Jungfraubahnen, and Wengernalp Bahn; for **Bern-Lötschberg-Simplon**, Bern-Neuchâtel Bahn and Spiez-Erlenbach-Zweisimmen Bahn; for **British Rail**, Vale of Rheidol Narrow Gauge Steam Railway; for **Connex**, Connex South Central and Connex South Eastern; for **First Group**, First Great Western, First Capital Connect, First TransPennine Express, but not First ScotRail; for **Indian Railways**, Darjeeling Himalayan and Kalka-Simla railways; for **Isle of Man Railways**, Douglas-Laxey-Ramsey Electric Railway, Douglas-Port Erin Steam Railway, and Snaefell Mountain Railway; for **Magyar Államvasutak**, Állami Erdei Vasút; for **Železničná Spoločnosť Slovensko**, Ozubnicové Železnice and Tatranská Elektrická Železnica; and for **Daitetsu**, Oigawa Steam Railway and Southern Alps.Abt Railway.
- Kilometres and Trips are shown separately for **City Night Line** and **Thello** under those names, despite railway ownership (full by German Railroad in the case of the former; partial by Italian State with the latter).

ABBREVIATIONS

coac	Coach or Pullman class (or other day accommodation)
loco	Locomotive hauled
slpr	Sleeper or Couchette class
smtt	Steam hauled
sprt	Self-propelled train
totl	Total

SPANISH NATIONAL:

03	91	68	52	7	6	3	23	-
----	----	----	----	---	---	---	----	---

- 03: 2003;
- 91: total number of units encountered on this Service Provider during this holiday;
- 68: number of cars (52 Coaches, Pullmans & Lounges; 7 Sleeping & Couchette Cars; 6 Restaurant & Other Meal Cars; and 3 Baggage & Miscellaneous Cars);
- 23: number of Locomotives and Related Units.

Also provided are tables for Coaches, Pullmans & Lounges (**TABLE K2**), Sleeping & Couchette Cars (**TABLE K3**), Restaurant & Other Meal Cars (**TABLE K4**), Baggage & Miscellaneous Cars (**TABLE K5**), and Locomotives & Related Units (**TABLE K6**).

Important further explanations and clarifications):

- “Service Provider” means the railway or agency providing the service;
- Major European Service Providers are presented first, followed by smaller European and Australasian entities under “OTHERS” (both groups in alphabetical order);
- **Coaches, Pullmans & Lounges** includes full Coaches, Daynitors, Coach Lounge cars, Coach Baggage cars, Pullman Parlour and Kitchen cars, full Lounge, full Observation, Observation Lounge, self-propelled cars (either diesel or electric), Inspection and Directors cars essentially in Lounge service; **Restaurant & Other Meal Cars**, Restaurant Buffet cars, Restaurant Coaches, Restaurant Lounge, full Buffet cars, Buffet Coaches, Buffet Kitchen, Buffet Lounge and Cafe Lounge cars; **Baggage & Miscellaneous Cars**, full Baggage, Guard, Parcels, Newspapers, Mail and Baggage Mail cars, Automobile carriers, Freight, Tool support and Crew cars; **Locomotives & Related Units**, diesel-electric, diesel-hydraulic, electric and steam locomotives, diesel and electric Power Coaches, Generator, and Baggage Generator cars.
- Under **Sleeping & Couchette Cars**, the following common acronyms refer to **European** car types (CAPS in **TABLE C**; Italics in **TABLE E**): F; MU; SLC; SLE; SLF; SLS; T2 (due to space limitations, several additional types are noted under MU [AB30; AB33; MUn; TWL4; U] or T2 [T2S];

LA GRANDE ALLURE: COMP. DOC. – PART V

- The following acronyms refer to **Australian** Sleeping car types: under SLF (*ARJ; RM*); under SLS (*ARL; ARM; BRJ; TWN*); and under SLE (*SEC*) – *TWN* being assigned to Twinette, *RM* to Roomette, and *SEC* to Sections;
- The following acronyms refer to **Indian** Sleeping car types: under SLC (*1AC2*); under SLF (*1AC*); under SLS (*2AC*); and under SLE (*3AC*) (also, “Sleeper Class” cars are considered **Couchette Cars**);
- Jointly owned units are arbitrarily split between the Service Providers involved;
- Numbers for **Berner-Oberland** include those of the associated Bergbahn Lauterbrunnen-Mürren, Jungfraubahnen, and Wengernalp Bahn; for **Bern-Lötschberg-Simplon**, Bern-Neuchâtel Bahn and Spiez-Erlenbach-Zweisimmen Bahn; for **British Rail**, Vale of Rheidol Narrow Gauge Steam Railway; for **Connex**, Connex South Central and Connex South Eastern; for **First Group**, First Great Western, First Capital Connect, First TransPennine Express, but not First ScotRail; for **Indian Railways**, Darjeeling Himalayan and Kalka-Simla; for **Isle of Man Railways**, Douglas-Laxey-Ramsey Electric Railway, Douglas-Port Erin Steam Railway, and Snaefell Mountain Railway; for **Magyar Államvasutak**, Állami Erdei Vasút; **Železničná Spoločnosť Slovensko**, Ozubnicové Železnice and Tatranská Elektrická Železnica; and for **Daitetsu**, Ōigawa Steam Railway and Southern Alps Abt Railway.
- Numbers are shown separately for **City Night Line** and **Thello** under those names, despite railway ownership (full by German Railroad in the case of the former; partial by Italian State with the latter).

PART VI EQUIPMENT DETAILS

[TABLE L]

CD-12: 1st class, narrow-gauge Sleeping car No. 1498 in Queensland Railways Sunlander, Brisbane Roma St. station (1990/12/01) [PETER DAWES].

SAMPLE ENTRIES AND EXPLANATIONS

[Note: shading is used here only for clarity (it is not used in the actual tables)]

TABLE L1
Coaches, Pullmans & Lounges

<i>name/number</i>	<i>years</i>	<i>notes</i>
--------------------	--------------	--------------

PAIGNTON & DARTMOUTH:

1956/br/ex-br: *[vctr]*

Sarah [4642]	07;07	[1957]; ex-Isadora
--------------	-------	--------------------

- **PAIGNTON & DARTM’H:** Service Provider was Paignton & Dartmouth Steam Railway;
- **1956:** year in which most such cars were placed in service;
- **br:** built by British Rail;
- **ex-br:** formerly owned by BR;
- **[vctr]:** reference for this car and type was Vintage Carriage Trust website;
- **Sarah [4642]:** name and number of car (**bold** would indicate that we occupied this car);
- **07;07:** car encountered twice during our 2007 holiday (in this case, on an excursion);
- **[1957]:** year this car was placed in service (different than the bulk of such cars encountered);
- **ex-Isadora** former name.

CZECH RAILWAYS:

1995-9/sdw/vtbn/emuc [RegioSprinter]: *[wikirs]*

VT 31	07	-
-------	----	---

- **CZECH RAILWAYS:** Service Provider;
- **1995-9:** years during which this class was placed in service;
- **sdw:** built by Siemens-Duewag;
- **vtbn:** owned by Vogtlandbahn (car operating into Czech Republic on behalf of ČD);
- **emuc:** Electric Multiple Unit car;
- **[RegioSprinter]:** product name for such cars;
- **[wikirs]:** reference for this car;
- **VT 31:** number of car (**bold** indicating that we occupied it);
- **07:** car encountered once during our 2007 holiday (again, **bold** because we occupied it).

TABLE L2
Sleeping & Couchette Cars

<i>name/number</i>	<i>years</i>	<i>notes</i>
AUSTRALIAN NATIONAL-V/LINE:		
1956/sarw/1 cl/9dc/ex-vl,sar [Twinette]: [comr]

FRENCH NATIONAL:

1964-5/eic/mu/1 & 2 cl/12tc/ex-ciwl: [lux; esc]

-	78;80[3];81[3];85;88	-
---	----------------------	---

- FRENCH NATIONAL:**
- 1964-5:** Service Provider;
- eic:** years these cars were placed in service;
- mu:** built by Enterprises industrielles Charentaises;
- 1 & 2 cl:** type of car (MU);
- 12tc:** 1st and 2nd Class;
- ex-ciwl:** configuration of 12, triple compartments;
- [lux; esc]:** formerly owned by Compagnie internationale des Wagons-lits et du Tourisme;
- :** references for such cars;
- :** indicates no numbers recorded for this series;

LA GRANDE ALLURE: COMP. DOC. – PART VI

- 78;**80**[3];81[3];**85**;88: indicates that such cars were encountered during 1978, 1980, 1981, 1985 and 1988 holidays (numbers in brackets meaning three times in both 1980 and 1981; **bold** that we occupied such cars during 1980 and 1985 holidays).

TABLE L5
Locomotives & Related Units

<i>name/number</i>	<i>years</i>	<i>notes</i>
BRITISH RAIL:		
1963/br/dhyd [Class 52 Western][scrp]: [wiki52; wlo]		
Western Glory [1072]	76	ex-D1072
• 1963:	year placed in service;	
• br:	built by British Rail;	
• dhyd:	diesel hydraulic;	
• [Class 52 Western]:	this locomotive belonging to BR Class 52, prefix "Western";	
• [scrp]:	current status of this series if known, in this case, scrapped;	
• [wiki52; wlo]:	references for this locomotive and type;	
• Western Glory [1072]:	name and number;	
• 76:	encountered on a single 1976 trip;	
• ex-D1072:	former number.	

1976-82/brel/desl [Class 253 HST]: [wiki253]

-	76[4];80[2];81[2];85[2];88[2]	-
---	-------------------------------	---

- 1976-82: years placed in service;
- brel: built by British Rail Engineering Ltd.;
- desl: diesel-electric;
- [Class 253 HST]: locomotives belonging to BR Class 253, High Speed Train (HST);
- [wiki253]: reference for this train type;
- 76[4];80[2];81[2];85[2];88[2]: indicating that such locomotives were encountered during these holidays (4 during 1976; two in each of the other years).

There are two additional tables: Restaurant & Other Meal Cars (**TABLE L3**); and Baggage & Miscellaneous Cars (**TABLE L4**).

Important further explanations (and reminders further to the above samples):

- A question mark indicates that information was not available;

LA GRANDE ALLURE: COMP. DOC. – PART VI

- A unit number in *Italics* indicates that it was assumed, not recorded;
- Where there is both a name and number, the latter is shown under **notes** when there is insufficient room beside the name (likewise for the full name where necessary);
- Letter prefixes are not always shown (this is especially true for Australian equipment);
- Second use of a name is indicated by the number 2 (e.g., Tantini:2);
- Also shown in the heading is any additional information, such as a type of car different than the main focus of the section (e.g., **pull** indicates a Pullman car in **Coaches, Pullmans & Lounges**) or a joint purpose car (e.g., **rest Inge** in **Restaurant & Other Meal Cars** means a Restaurant Lounge car);
- Where necessary, additional information is indicated under **notes**, including – where a series of cars or locomotives is involved – any variation from the heading (e.g., built in a different year than most of the units encountered);
- Former and later information appears in the heading if for an entire class, but under **notes** if applying only to certain of the units listed;
- Where an entity other than the Service Provider owns the unit(s), the abbreviation for that entity (if known) is shown in the heading, immediately to the right of the manufacturer (please note that British Service Providers lease a lot of their equipment, but that the lessors are not shown);
- Not all manufacturers are shown where several companies were involved in building a class or individual units (this being particularly true of electric locomotives);
- **Coaches, Pullmans & Lounges** includes full Coaches, Daynitors, Coach Lounge cars, Coach Baggage cars, Pullman Parlour and Kitchen cars, full Lounge, full Observation, Observation Lounge, self-propelled cars (either diesel or electric), Inspection and Directors cars essentially in Lounge service; **Restaurant & Other Meal Cars**, Restaurant Buffet cars, Restaurant Coaches, Restaurant Lounge, full Buffet cars, Buffet Coaches, Buffet Kitchen, Buffet Lounge and Cafe Lounge cars; **Baggage & Miscellaneous Cars**, full Baggage, Guard, Parcels, Newspapers, Mail and Baggage Mail cars, Automobile carriers, Freight, Tool support and Crew cars; **Locomotives & Related Units**, diesel-electric, diesel-hydraulic, electric and steam locomotives, diesel and electric Power Coaches, Generator, and Baggage Generator cars;
- Where no numbers or names were recorded, the numberless, nameless format is used in both **Locomotives & Related Units** (for locomotives powering semi-fixed sets, e.g., British HST) and in **Sleeping & Couchette Cars** (for certain car types, such as French National MU types) – the holiday years, and number of units encountered during each holiday, being shown, and **bold** indicating that at least one such unit was occupied during that holiday;
- Where names and numbers of locomotives powering semi-fixed sets (e.g., British HST) were recorded, they are shown in **Locomotives & Related Units** (an exception being the Australian XPT, which was fully recorded and is shown in the appropriate sections);

LA GRANDE ALLURE: COMP. DOC. – PART VI

- Multiple unit trains are shown either by individual car (indicated as “emuc” for an Electric Multiple Unit car, or “dmuc” for a Diesel Multiple Unit car), or by train set (shown as “emus” or “dmus”);
- Under **Sleeping & Couchette Cars**, the following common acronyms refer to car types: AB30, AB33; F; MU; MUn; SLC; SLE; SLF; SLS; TWL4; T2; T2S; U; 1AC; 1AC2; 2AC; and 3AC (also, in India, “Sleeper Class” cars are considered here as **Couchette Cars**);
- A subsidiary or outside company staffing and provisioning a Sleeping car is indicated in the heading, to the right of the configuration (e.g., on Czech Railways, “/10tc/jlv” indicates Jídelní a Lůžkové Vozy/Dining and Sleeping Car Co.); and
- Wheel arrangement is shown for steam locomotives only.

Finally, all of the equipment information provided in this document comes from secondary sources and will not always be accurate (due to errors in the source material or misinterpretation by the author) or up to date (where later disposition is concerned). Compared to its North American equivalent, my recording of **numbers** has been sporadic at best., due to the sheer number of services taken, quick station stops, and complexity of both train composition and the numbers themselves. (Notable exception: most numbers encountered during the 1990 holiday in Australia were recorded.) **Please send corrections and further information to the author, using the information provided on page 2.**
